Dear recipients,

* This report covers the sample period May 5-12, 2014.
* Below is a summary of adult potato psyllids captured on sticky cards (a transect of 5 traps are deployed, unless otherwise noted) and the number positive for Liberibacter (Lso). Thanks to Dr. Charlie Rush and Li Paetzold for providing RT-PCR results, and to Bill Warfield and Adrian Silva for sample collections and processing.
* Please let me know if you would like to be removed from receiving the report, and suggested additions.

May 16, 2014

**TRAPS:** (5 traps unless otherwise noted)
